EASY does it!

Our Spring 2014 issue is all about easy dressing — garments that require no fuss to maintain and wear, even though they might take some time to create. But isn't that why we knit — for the enjoyment of the process? This treasure trove of ideas and patterns will keep your hands and needles active for months.

Dots and dashes...

When you work slip-stitch stripes, you get fabrics that look more complicated than they actually are — they appear to have color or openwork inserted between the lines. Pick a fine yarn and, rather than eyelets or lace, work a slip-stitch pattern into the denser fabric. *Daring dashes* consists of 2 widths worked in 2 colors. The silhouette borrows detailing from a polo shirt, with an elongated back hem and side vents. A spectrum of colorful *Flashes & dashes* travel throughout a trapeze shell. Its simple shaping makes for quick knitting and is comfortable and flattering.

Quiet — almost tonal — stripes call for attention when you add slip stitches to the mix. They lie above a field of stockinette, creating a break in the stripes and a vertical line, as well. *Slip shape*, worn under a jacket or on its own, will assure that you are ready for anything Spring sends your way.

Off the cuff!

Color blocking and creating garments from coordinating fabrics is on trend — one knitters can easily ride by changing the color sequences, altering stitch patterns, or even reversing a knit fabric.

Thick bands and narrow stripes come together to form *Blurred lines*. Here it is all about aligning colors! Two narrow stripes are separated by one background stripe in the sleeves, and align with matching 6-row bands on the body. When a fabric looks good on either side, pick one for the body and then the *Flip side* for the sleeves — we use both in this classic V-neck. A jacket made in two colors of a marled yarn provides a chance to place 3-D checks in the body, while the saddle sleeves are worked in a single yarn for contrast and fine detailing.

Just add texture...

The T-shirt takes center stage with cable and slip-stitch bands at each opening. Colors flow through the bands, turning the *Mesa tee* into a polished pullover. *Sand pebbles* is quick and easy with the highly textured tufted yarn. The 2-row stripes, worked in a knit-purl combination, create a vest with plenty of personality — perfect for Spring and beyond.

Or a twist?

A flirty front vent and splayed ribs at the hem come together to form *Blue helix*. Because the cables are placed asymmetrically in the body, it follows that the sleeves get a similar treatment. Imagine it in your favorite color, then make it a reality. For even more drama, go long and lean! *Lucerne* develops your cable skills as you work a stunning vest. Once you begin, you'll see how simple it is, and will soon become an expert in cables, twisted stitches, and charts.

Easy as ABC!

Leave monograms on sweaters to sorority girls and frat boys. *Letter perfect* allows you to feature your initials in the Fair Isle yoke of a long, lean vest. Pick yours and drop them into the pattern for a truly personal take on knitting. Fiona Ellis shares a complete alphabet, along with hints for spelling success in Fair Isle.

Aria blends a group of hand-dyed yarns into a great jacket, and *Laura Bryant* teaches you how to combine multiple colorways into a cohesive palette. Soon you'll be confident enough to customize your own combinations!

Safe and sound...

The elegance of lace and the drape of silk make the *Tulip tunic* a must-knit. The flowing trapeze shape is perfect to layer over a tank, a tee, or even a slip dress. The opportunity to

play with 3 different laces is enticement enough for lace aficionados.

Play with short-row shaping in *Drifting lines*. It's more than just stripes, with a center cast-on and nesting shapes forming a practical rectangular stole. It's a fun knit, with stockinette and garter-stitch sections and stripes. How about relaxing under a garter-stitch blanket with *Ombre fans*—created with dip stitches? In *Chevron skirt*, the ripple pattern—familiar to many afghan knitters—comes out of the bedroom and onto the streets in a fresh, wearable wrap silhouette. The crisp colors and sleek crochet waistband are perfectly modern.

Or daring?

Lolita is appointed with center cable accents surrounded by knot-studded stockinette. The curved front hem and wide neckline will heat up any event, as will our *Majestic tank*—the cover sweater! Its lace-and-nupp border, cropped waist, and lovely color flow command attention.

Easy dressing and knitting fun!

Letter perfect CIPHERS in Fair Isle

by Fiona Ellis

A walk through any shopping center leaves no doubt that a designer's name stitched in large capital letters or cleverly made into a logo is a popular trend. We might think that the fashion of wearing logos on our clothing is something new. If we stop to think about it however, the idea of pledging allegiance to one group or another goes back quite some time, although it seemed less blatant in its earlier execution.

Look back far enough, and we see the heraldic tradition of well-to-do families displaying coats of arms, combining mottos on banners with shields and images of animals.

In more recent times, people have worn badges, pins, or other decorations on their clothing to show affiliation with a particular group. Regimental insignia and military uniforms spring immediately to mind. Symbols, and sometimes lettering, indicate not only the service the personnel belong to but also their rank. Nurses typically wear beautiful pins as part of their uniform to show where they have trained. It is also common practice to wear logo pins to show the world our opinions on things as diverse as a favorite band or our political allegiance.

A monogram, made up of overlapping initials, is still considered a classy way to personalize an item, but there are other ways of using initials to form a personal logo of sorts. Ciphers, often used by monarchs, consist of letters placed side by side without a stylized intertwining, such as this one used by Queen Elizabeth II.

In my vest design, the use of Fair Isle letter motifs is in keeping with a cipher, and is a terrific way to personalize a project. Combining the initials of somebody special into Fair Isle patterning is a lovely way of making something unique and meaningful.

DESIGNING A CIPHER

For my vest design I selected the three initials X, R, and X, but if you wish to make a personalized project I have included charts for all 26 letters of the alphabet. Typically, Fair Isle patterns are symmetrical along both the horizontal and vertical planes — the letter X is a great example of this. Most other letters are not perfectly symmetrical, so to make them less obvious I have turned them upside down and backward to create some quirky effects.

In some cases, it is necessary to add tiny **filler motifs** to break up large areas of the background — take a look at the letters I, P, L, and T to see how I did this. You might also find, after you have selected your letters, that you need to add filler motifs between the charts. Place the charts next to each other as they will be knit, look for areas where the non-working yarn will have to be carried over more than 3 stitches, and see if you can break it up somehow — it can be as simple as adding just 1 stitch in your contrast color.

You may wish to use your own color palette for your project (more on that later) and maybe even change up where each **stripe or color change** occurs. There are only two colors in each round, and you can choose to change either or both of them. I have found that staggering the changes rather than changing both on the same round creates a more subtle striping effect, rather than a solid line or break.

Combining patterns that **vary in scale** prevents the design from becoming predictable, in much the same way that adding a highlight color can create excitement. In this design I have combined the cipher with a smaller 6-row repeat to create a more interesting overall pattern.

One of the things I find most important in all of my projects is paying **attention to the details**. When I am designing colorwork projects I try to repeat the highlight colors in the trims and edges — this gives a polished look and also means that you will use more of your contrast colors.

COLOR in Fair Isle

Where you **place each color** may have a dramatic effect on how the patterning appears — which part stands out and which does not. The **proportions** at which you use your palette can also have a dramatic effect. It can be a lot of fun to experiment with both. Once you have selected your palette, try making a few swatches, changing up where you place the color changes or using more of one color or another — and see what effect it has.

When working Fair Isle patterning, we use a very small amount of each color — maybe just 1 or 2 stitches of each — so what appears to be quite a dramatic difference between whole balls of yarn may be much less obvious when worked in the pattern.

Same color palette and patterning with colors placed differently.

Same color palette (different patterning) used in different proportions.

Try working simple stripes to test color placements.

Use a Ruby Beholder to check value contrast

One important aspect to consider when selecting your palette is whether you have enough contrast between lights and darks. This is called **value contrast**. Selecting colors that have a good value contrast (light vs. dark) can be a little tricky, so here are a couple of tricks that I have learned:

If you wish to change the palette of a project such as this one, you can make a black and white copy of the photograph (or of your own swatch) to show you where the lights and darks are placed. From this you can select different colors, keeping the lights and darks in the same places and thus continuing to have the same areas of the pattern highlighted.

A tool called a "Ruby Beholder," a red acetate strip used by quilters, can be looked through to determine value contrast. By preventing the eye from seeing the colors, it enables us to evaluate how light and dark each yarn is in comparison to the others.

Another tip: when knitting the pattern, if you are having trouble seeing which color each stitch is, this is usually a result of the colors being too close in value.

Pop Colors

In order to create excitement for the eye, it is necessary to have variation between the colors. The patterning really begins to sing when you add something a little unexpected to your palette. I call these my **pop colors**. They tend to be the quirky colors that you might not choose to wear all over, but that work beautifully when placed sparingly. When selecting them I hear the phrase from Monty Python in my head: "And now for something completely different." To a cool palette, add something warm; to a dark palette, add something pale.

Here is a list of my favorite pop colors: Electric Blue, Lime Green, Shocking Pink, Bright Yellow, Pure White, Midnight Black, Royal Purple, and True Scarlet.

DESIGN with Fair Isle

The design principle to bear in mind when you are selecting both patterning and color for any project is:

The eye will always be drawn to the point of greatest contrast or where a change takes place.

We see this idea manifest itself whenever we make an error in a pattern — it sticks out like a sore thumb because that's where the most change is happening.

Errors aside, we need to be mindful of this principle because it will affect which part of the garment others focus their gaze upon. The change can be in line, shape, stitch pattern, or texture, or — in the case of Fair Isle patterning — in color.

Bold changes will of course demand much more attention, whereas **gradual changes** will create a softer, more muted, effect, so select the colors and the position of color changes carefully to achieve your desired effect.

IF YOU WANT EYE-CATCHING PATTERNING, USE COLORS THAT ARE:

Complementary Opposite each other on the color wheel

Warm Colors that contain red will appear to advance

Saturated Pure colors are generally brighter

Or that have a **high value contrast** Black and white are the most different

IF YOU WANT SUBTLE PATTERNING, USE COLORS THAT ARE:

Analogous Next to each other on the color wheel

Cool Colors that contain blue will fade into the background more

Duller, **less intense** Mixing in white or black will tend to make softer, less striking colors

Or that have a **low value contrast** Shades of mid grays

UNDERSTANDING COLOR THEORY TERMS

Value This refers to how light or dark a color is. Even if two yarns are very different from each other in color (for example, red and green), they may be similar in value. Using colors close to each other in value can sometimes make it difficult to see the patterning, especially in low light.

Complementary/Analogous Colors that appear opposite each other on the color wheel are described as **complementary**. Colors that sit next to each other on the color wheel are called **analogous**.

Warm/Cool Colors that appear redder are described as **warmer**; those that appear bluer are considered **cooler**. Warm colors are said to advance and cool colors to recede. To visualize this, think of a scarlet dress against a misty landscape.

Saturated/Muted Pure colors are **saturated**. The more you mix them with other colors, the more **muted** and complex-looking they become. If you mix in white, you produce **tints** of a color; mixing gray produces **tones**; adding black gives us **shades**.

It is a good idea to evaluate what type of palette you have selected when choosing **the dominant or background color**. If your palette is made up mostly of tints, for example, using white for the background will produce a harmonious look, whereas a black background will make the tints really stand out, and vice versa.

CHOOSING COLORS

The main considerations when selecting your color palette for a project is the mood and feeling you wish to create: What season it will be worn in, who will be wearing it, and for what type of lifestyle? If you are making something to be worn in the winter to the office, you might select an entirely different palette than you would for something to be worn casually in the summer or on a cruise, for example.

Youthful, sporty, bright

Earthy, muted, woody

Misty, pale, feminine

Powerful, dramatic, nighttime

Where to find ideas for color schemes

You will, of course, find your own sources of inspiration, but here are a few of my tried-and-true favorites: I look for **fabric** with the printer's key on the selvedge, to aid in determining which colors are contained within the pattern. An artist builds a palette that you respond to; pause and ask yourself how their **art** makes you feel. Is that the mood you wish to create? Using a **greeting card** that was given for a special occasion can make the color scheme very personal. See the accessory colors for a **well-put-together outfit** or the accent pillow in a **nicely styled room** as the highlight/pop color.

TECHNIQUES for Fair Isle

Fair Isle knitting is a traditional technique that used small geometric motifs repeated across a row. The overall appearance can give the impression that, because many colors have been used throughout the project, it involves a complicated form of patterning. In fact, the patterning used for this design and for most Fair Isle patterns never has more than two colors in any one row.

Throughout each row, the color not being used is carried across the back of the work and picked up later. In this design, the patterning is worked in stockinette in the round, which means you will be knitting every round. In order to do this and still have openings for the center front, neck, and armholes, a few extra stitches are worked at these points, then the fabric is cut. This technique is called **steeking**.

Working with two colors If the pattern requires a color to be carried over three or fewer stitches, the stranding method is used. The second color simply remains at the back of the work until it is needed again, at which point the first color is moved to the back to wait for its next turn.

The stranded yarn produces floats on the wrong side of the fabric. It is important to carry the unused yarn loosely, but not too loosely, on the wrong side of the piece. If the yarn being stranded is pulled too tightly, the result will be a puckered or uneven fabric on the right side. To avoid this, slightly stretch out the stitches on the right-hand needle (the ones that have just been worked) before picking up the stranded yarn again. The aim is to have each stitch sit perfectly within the row without being bunched together or splayed apart.

When a color is to be carried over more than three stitches, it needs to be secured to the back of the fabric by the working yarn on every third stitch. This is called the weaving method. This method maintains most of the elasticity of the fabric and avoids the creation of long floats, which increase the chance of puckering. To secure the second color, simply lay it over the working yarn before working the next (fourth) stitch. It is possible to weave in the second color after every other stitch, but this produces a dense fabric with very little elasticity.

Both the stranding and weaving methods may be used together within one row, the method used depending entirely on how many stitches the yarn needs to be carried over. The weaving method can also be used when carrying one color up the side of a piece — simply twist the first color around the second every two rows or rounds.

Working in the round Working in the round (knitting every row), your gauge may differ from stockinette worked back and forth (knit one row, purl one row), as you are not working any purl stitches. I would strongly suggest that, for accuracy, you also work your gauge swatch in the round. Using a circular needle, work across Row/Round 1 in pattern. Slide the stitches to the other end of the needle and, running a strand a few inches long across the back, continue working the next "round." When you have completed your swatch, bind it off and cut through the strands on the back before blocking.

Weaving in ends Using multiple colors means there are more ends to weave in when you are finished knitting. To avoid this, some knitters like to weave as they go, passing the working yarn over the end every stitch for the first few stitches of a row or round. By doing this, however, you will only have woven the end in one direction. To make sure the ends are really secure, you really should weave them in two directions. To see for yourself, use your gauge swatch (I know you made one!). Try weaving the end in just one direction, cut it off, then stretch the knitting to its full extent and you will see that the end is not fully secure — it begins to wiggle its way out again.

I usually save weaving my ends until I have finished all the knitting. When sewing ends into solid-color stockinette, I always weave them into the seam so they don't show through on the public side. But when weaving in colorwork ends, there are usually quite a few in one area. Weaving them all into the same spot would make the fabric bulky and ugly. Because there is also a color change right there, I weave ends along a line of color change: in toward the body of the piece and then back in the opposite direction. Avoid weaving ends into solid-color areas or in a vertical direction, because this will tend to show on the public side.

I think the thing we dislike most about weaving in ends is that it requires us to keep threading a sewing needle. I have a tip for avoiding that! I have a handy dandy tool that came with my knitting machine, but you can buy them separately. It is a fine latch hook — basically a knitting machine needle with a plastic handle on it — like the tool used for rug hooking. I weave the hook through the purl bumps, working toward the end that needs to be anchored, place the yarn end in the hook, and pull it back through the work. This action closes the latch and pulls the yarn through the work just as if you had sewn it. Then, of course, you need to work back in the opposite direction.

Shape back shoulders

Join yarn at right armhole steek and at beginning of every row bind off 5 steek stitches plus 6 (7, 8, 8, 9, 9, 9) shoulder stitches twice, 6 (7, 8, 8, 9, 9, 9) twice, then 7 (7, 7, 8, 8, 9, 10) twice. Bind off remaining 42 (40, 44, 48, 46, 52, 58) stitches.

Finishing

Crochet and cut steeks.

Armbands

The armband encases the steek.

Outside facing With RS facing and B, beginning at shoulder, PUK along armhole. Do not join. Beginning with a WS row, work 4 rows in stockinette. Cut yarn and leave stitches on hold on needle. **Inside facing** With WS facing, a second needle,

and A, PUK 1 in every purl bump from first pick-up row. Beginning with a WS row, work 3 rows in stockinette. Cut yarn. **Join facings** With RS facing and A, join both facings using 3-needle bind-off, completely encasing steek edge. Sew shoulder seams and armbands.

Neckband

With RS facing and B, k14 (14, 14, 15, 16, 16, 17) held right front neck stitches, PUK around neck edge, k14 (14, 14, 15, 16, 16, 17) held left front neck stitches. Work and join facings as for armband.

Left front band

With RS facing and C, PUK along left front from top of neckband to bottom of neck steek. Work and join facings as for armband, working inside facing and 3-needle bind-off with D.

Right front buttonhole band

Mark placement for 3 buttonholes along right front edge, with top and bottom buttonholes 1/2" from top and bottom of steek and the other centered between. With RS facing and C, PUK along right front from bottom of neck steek to top of neckband. Work and join facings as for left front band EXCEPT work buttonhole at marked positions on second row as follows: K2tog, yo twice, SSK. On next row, purl into first yo loop, then p1 tbl of second yo loop. Sew on buttons. With C, buttonhole stitch around buttonholes, joining both facings. Block. □

Knit Wise

Crochet & cut steek

1 Prepare for the crochet steek by knitting through the back loop of the first and last steek stitch of every round.

2 Holding yarn on the WS and crochet hook on the RS, chain through each twisted stitch as shown.

3 Cut through the center of the steek to form an opening.

Knit Wise

Yarn over twice (yo twice)

After bringing yarn over the needle (first yarn-over), wrap yarn completely around needle a second time. On next row, work into the double yarn-over as instructed.

PUK

Pick up and knit (PUK) at the following rates: 5 stitches for every 6 rows between edge and beginning of steek along vertical and diagonal edges AND 1 stitch for every bound-off stitch.

Painting with yarn

by Laura Bryant

Painting

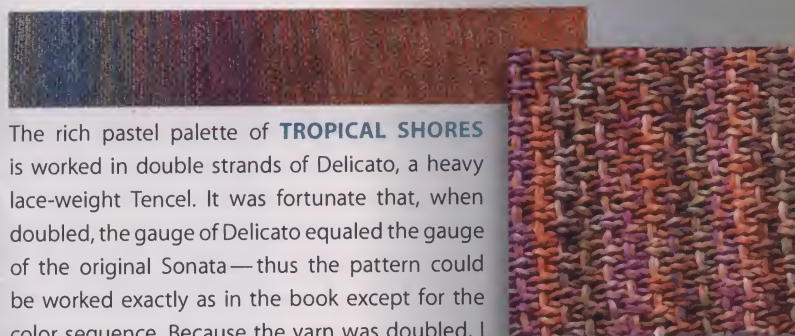

The colors of our world inspire, engage, surprise, and envelop us. We respond to color viscerally and take pleasure from colors well combined. Great artists and designers often exhibit an easily recognized knack with color, and we have much to learn from them. The Impressionist painters first discovered what is now known as *optical mixture* when they began applying small dabs of differently colored paints to create distinct shapes. When viewed from a distance, these dabs merge together in the brain to read as a new color. Knitters have at their fingertips one of the most useful of painterly tools—the ability of a stitch to become a pixel—the equivalent of a small dab of paint. Most of us in this digital age are familiar with pixels, and it is an easy leap to *understand stitches as pixels*. Pixels, when juxtaposed with one another, become something else—something more than the sum of many parts.

Sonata The cover sweater from *Artful Color, Mindful Knits* has proved to be one of my most beloved designs. As knitter after knitter responded to both the classic shape and the lush, painterly color, I examined the piece to determine what facets were evoking their enthusiasm. The flattering shape is hard to argue with—both boxy (in body) and refined (slightly narrower three-quarter or bracelet-length sleeves and faced kimono-style collar), it suits many body styles. As for the colors, half linen stitch is key, as it is employed to blend a diverse group of colors in a soft, gradual way. Every other stitch on each right-side row is slipped, which moves colors from the row below up into the current color, reducing striping and pooling and allowing colors to mix optically. Additionally, the yarn is moved forward when the stitches are slipped, creating a bar across the fabric that mimics weaving. Eight hand-dyed multi-colors were worked thus: a section of A alone, then two rows A alternated with two rows B, then B alone, then B alternated with C, and so on through all eight colors, working from light through dark. This blank canvas of a garment is perfect for experimenting with yarn choice, and is easily adapted to an array of color approaches. Hand-dyed and other multi-colored yarns really shine as the pattern stitch interrupts any possible pooling or striping, but solid or tonal colors can also be successfully combined. Here is our suite of Theme and Variation pieces: five distinct jackets that explore color in unique ways.

ARIA The featured jacket (on page 32) is made to the original Sonata schematic but in a different gauge. One tonal multi-color (A) runs throughout the entire jacket. The remaining five colors are semi-solid jewel tones. I began by alternating two rows A with two rows B, transitioned to C by working one row each of A, B, C for a section, then dropped B and continued on, alternating two rows A and C until it was time to transition to D. Each color combination segued to the next via one-row stripes of all three colors for a short stretch. The color shift is more subtle, with less light-to-dark movement. The key here is to *select colors that are the same relative value, or weight—colors of different lightness and darkness will not blend well*. The slightly thicker yarn has a similar crisp feel to the original, with a bit more bulk (but faster knitting!).

The rich pastel palette of **TROPICAL SHORES** is worked in double strands of Delicato, a heavy lace-weight Tencel. It was fortunate that, when doubled, the gauge of Delicato equaled the gauge of the original Sonata—thus the pattern could be worked exactly as in the book except for the color sequence. Because the yarn was doubled, I could blend from one color to another simply by changing one strand at a time. I began with A and B for a stretch, then replaced A with C and continued on with B and C. After another stretch, D replaced B, and so on. The knitting is slightly easier, as there isn't a yarn change every two rows—simply change one strand when it is time to transition. Again, the key is to select colors of the same relative value, as sharp contrasts in light and dark will not blend well. You could, however, use a selection of colors that move from light to dark and successfully blend them, as we did in the original. Tencel brings a heavier, silky, draped feeling to the jacket.

OCEAN BREEZE is worked in sport-weight linen and sea colors for a crisp, nautical feel. This group of colors includes several multi-colors and several tonal solids; to avoid solid stripes, no one color is ever used alone. *The transition from the second color to the third was a slightly bigger jump*, so rather than switching automatically from two rows A/two rows B to two rows B/two rows C, *I inserted a section of one-row stripes of A, B, C to introduce C gradually*. Once A was removed, the balance of the jacket returned to alternating two rows with two rows, moving through the rest of the color group. Repeated washing and drying has softened the linen, and it will continue to age gracefully.

MOUNTAIN AIR is a more luxurious version, using a single-ply merino/cashmere/silk blend that has a softer, less-structured hand, and a great deal of luster. *A restrained palette of colors* was selected, and while the colors shift to slightly darker in the center body, they are very similar in feel and the shifts are subtle. A straight progression alternating first two rows A and B, then two B and C, then two C and D, and so on through all colors was used, again alternating a semi-solid with a multi-color to avoid solid stripes.

PAINTED DESERT circles back to the technique used in Aria: one main color was chosen—in this case the original Sonata yarn of crisp merino. The remaining yarn is a hand-dyed metallic rayon/lurex blend in a variety of colors. Just as for Aria, *A stays consistent throughout the garment* while another seven colors transition from one to another throughout. While the rayon portion of the blend takes dye, the metallic portion simply stays gold, so the changes are very subtle. *Choose your main color carefully*—it needs to be of middle value/weight in relation to the other colors. Too much contrast and the colors won't blend.

General directions: a total number of skeins is given for each version in size 2. You may use multiples of some colors, fewer colors, multi-colors, solids, or any combination you wish. Divide each skein roughly in half, and monitor yarn usage. If you have used half of a color on one sleeve or the back, save the rest for the other sleeve or fronts and transition to another color. Worst case scenario is that you add another skein to the center back and collar if you have misjudged and are running out.

TROPICAL SHORES

Worked as original Sonata pattern in *Artful Color, Mindful Knits*. Divide each skein roughly into halves; this makes it easy to check color usage. If you are running low, you may need to add another color, adjust the frequency you are using a color, or consider 3/4-length sleeves. Work doubled throughout. PRISM Delicato; 100% Tencel; 4oz/112g; 630yds/567m; size 1 yarn; 8 skeins total — 1 skein each: **A** Mango, **B** Sedona, **C** Melon, **D** Arroyo, **E** Peony, **F** Mojave, **G** Aegean, and **H** Sky. Gauge should be the same with Delicato doubled, but needle size might differ. **Stripe variation:** Each section is worked with 2 different colors held together: one color stays as the other is changed. **Begin with sleeves:** A and B to 10", B and C to 4" or 5" — finished sleeve length 14" or 15". **Back:** B and C to 1½", C and D to 4", D and E to 7", E and F to 10", F and G to 12", G and H to 13½", mark for center back, then work through colors in reverse. **Fronts:** As for back to 11" (middle of F and G stripe). **Front and Neckband:** F and G for 1", then change to G and H. Facing can be H alone if needed.

OCEAN BREEZE

Worked as original Sonata pattern in *Artful Color, Mindful Knits*. Divide each skein roughly into halves. Prism Euroflax Sport Weight Linen, 100% linen; 3.5oz/100g; 270yds/243m; size 2 yarn; 8 skeins total — 1 skein each: **A** Pool, **B** Lichen, **C** Blue Lagoon, **D** Malachite, **E** Peacock, **F** Jade, **G** Alpine, and **H** Indigo. Gauge should be the same as original, but needle size might differ. **Stripe variation:** Most sections are worked alternating 2 rows/2 rows, with one transition of A, B, C. **Begin with sleeves:** A and B to 8", A, B, and C to 5", B and C to 2" — finished sleeve length 15". **Back:** B and C to 2", C and D to 4", D and E to 7", E and F to 10", F and G to 12", G and H to 13½", mark for center back, then work through colors in reverse. **Fronts:** As for back to 11". **Front and Neckband:** F and G for 1", then change to G and H. Facing can be H alone.

Color notes

Color A is consistent throughout jacket, alternating 2 rows with B; transitioning to 1 row A, B, C, and then to 2 rows A, 2 rows C, etc.

To work 1 row each of 3 colors, place one ball to your right, one ball in front of you, and one ball to your left.

Add new color at the beginning of a WS row only.

Hold the work up as you turn and notice that one direction tangles the yarns and one direction keeps them in order.

Jacket could easily be made longer by simply casting on more stitches for fronts and back.

Continue front neck shaping and AT SAME TIME, at beginning of every RS row bind off 4 stitches 0 (0, 0, 0, 1) time, 3 stitches 1 (1, 2, 2, 1) times, then 2 stitches once. Dec 1 at beginning of every RS row 2 (3, 4, 4, 4) times — 41 (45, 47, 50, 52) stitches remain when all shaping is complete. Work even until armhole measures 10 (10 1/2, 11, 11 1/2, 12)", end with a WS row. **Next row** Bind off 30 (34, 36, 39, 41), work to end — 11 neckband stitches remain. Work even until band measures approximately 3 (3, 3 1/2, 3 1/2, 3 1/2)", place on hold.

Right Front
Join yarn at armhole edge. Work as for left front, EXCEPT reverse shaping. Bind off armhole at beginning of WS rows. Bind off shoulder stitches on a WS row.

Back
Join yarn at left armhole edge. Work 1 row even.
Shape armholes
At beginning of every row, bind off 4 stitches 0 (0, 0, 0, 2) times, 3 stitches 2 (2, 4, 4, 2) times, then 2 stitches 2 times. Dec 1 each side every RS row 2 (3, 3, 4, 4) times — 96 (104, 110, 118, 126) stitches. Work even until armhole measures 6 (6 1/2, 7, 7 1/2, 8)", end with a WS row. Mark center 32 (32, 36, 36, 40) stitches for neck.

Shape shoulders
At beginning of every row, bind off 3 stitches 0 (8, 10, 18, 18) times, then 2 stitches 18 (10, 8, 0, 0) times — 60 (60, 64, 64, 72) stitches.

Shape neck
Next row (RS) Bind off 2 (2, 2, 2, 3), work to marked stitches and place stitches on right needle on hold, bind off marked center stitches, work to end — 14 (14, 14, 14, 16) stitches.

Shape back left shoulder and neck
Rows 1 and 3 (WS) Bind off 2 (2, 2, 2, 3), work to end. **Row 2** Bind off 5, work to end. **Row 4** Bind off 3, work to end. **Row 5** Bind off remaining 2 stitches.

Shape back right shoulder and neck
Join yarn at neck edge. **Row 1** (WS) Purl. **Row 2** Bind off 2 (2, 2, 2, 3), work to end. **Rows 3–5** At beginning of next 3 rows, bind off 5 once, 2 once, then remaining 3 stitches.

Finishing
Block. Sew shoulder seams. Neckbands should meet at center of back neck when slightly stretched. Adjust if necessary, then graft to join.
Sew edge of band to back neck.

Armbands
With RS facing, shorter circular needle, and beginning at underarm, pick up and knit around armhole at the following rates: 4 stitches for every 5 rows along vertical and diagonal edges AND 1 stitch for every bound-off stitch. Count stitches and adjust to an even number on next round if necessary. Place marker and join to work in the round. Work 6 rounds in K1 tbl, P1 Rib. Bind off in pattern. Sew on buttons. ◡

Knit Wise

1 Remove first stitch from left needle and hold to back. Bring right needle in front of loose stitch and knit through the back loop of next stitch on left needle.

2 Place loose stitch back onto left needle and knit it through the back loop.

1 Remove first stitch from left needle and hold to front. Bring right needle behind loose stitch and purl next stitch from left needle.

2 Place loose stitch back onto left needle and knit it through the back loop.

A twisted knit stitch crosses to the right over a purl stitch.

A twisted knit stitch crosses to the left over a purl stitch.

Back

With smaller needles and MC, cast on **131** (143, **155**, 161, **173**). Beginning with a WS row, knit 7 rows. Change to larger needles and work 6 rows in stockinette. **Begin Chart** Work Rows 1–16 of Chart twice.

Shape sides

Work Rows 1–16 of Chart 5 more times and AT SAME TIME, Dec 1 at each edge on Rows 3 and 11 of each repeat. Work Rows 1 and 2 once more — **111** (123, **135**, 141, **153**) stitches.

Shape armhole

At beginning of every row, bind off 6 (7, **10**, 11, **13**) twice. Dec 1 each side of every RS row **6** (8, **10**, 10, **12**) times — **87** (93, **95**, 99, **103**) stitches. Work even until armhole measures **7** (7½, **8**, 8½, **9**)", end with a WS row. Place stitches on hold.

Front

Work as for back until armhole measures 3", end with Row 2 or 8. Mark center **29** (33, **33**, 35, **35**) stitches for neck.

Shape armhole and neck

Continue armhole shaping and AT SAME TIME, work to marker, join a second ball of yarn and bind off marked center stitches, work to end. Working both sides at the same time with separate balls of yarn, Dec 1 at each neck edge every RS row 6 times — **23** (24, **25**, 26, **28**) stitches remain on each side. Work even until armhole measures same as back to shoulder, end with a WS row.

Finishing

With RS together, join shoulders using 3-needle bind-off as follows: Join **23** (24, **25**, 26, **28**) stitches of first shoulder; bind off back neck stitches until **23** (24, **25**, 26, **28**) stitches remain; join second shoulder.

Neckband

With RS facing, circular needle, MC, and beginning at left shoulder seam, pick up and knit (PUK) around neck edge at the following rates: 3 stitches for every 4 rows along vertical and diagonal edges AND 1 stitch for every bound-off stitch. Place marker and join to work in the round. Purl 1 round. Change to CC and knit 1 round; purl 1 round. Change to MC and [**knit 1 round; purl 1 round**] twice. Bind off in purl.

Armbands

Sew side seams. PUK around armhole and work as for neckband EXCEPT, begin at side seam. ○

Shape neck

Work to marker, join a second ball of yarn and bind off marked center stitches, work to end. Working both sides at the same time with separate balls of yarn, at each neck edge bind off 3 once, 2 stitches 2 (3, 3, 3) times, then 1 stitch 3 (2, 2, 2, 2) times—15 (16, 18, 20, 23) stitches. Work even until armhole measures same as back to shoulder. Shape shoulders as for back.

Finishing

Block pieces. Sew shoulder and side seams.

Neckband

With RS facing, circular needle, MC, and beginning at left shoulder seam, pick up and knit (PUK) around neck edge at the following rates: 5 stitches for every 6 rows along vertical and diagonal edges AND 1 stitch for every bound-off stitch. Place marker and join to work in the round. Count stitches and adjust to a multiple of 2 on next round, if necessary. Work Chart 2 for 1". Bind off.

Optional: Bind off in pattern, using Tubular bind-off.

Armbands

PUK around armhole and work as for neckband EXCEPT begin at underarm seam. ◊

Tubular bind-off

Leave a long end of yarn and thread it in a blunt sewing needle. Assuming the first stitch is a knit stitch, bring yarn through it as if to purl; leave stitch on knitting needle.

1 Take blunt needle behind knit stitch, between first 2 stitches, and

through purl stitch as if to knit; leave stitches on knitting needle.

2 Bring yarn around to front and through knit stitch as if to knit; pull stitch off knitting needle.

3 Take blunt needle in front of purl stitch and through knit stitch as if to purl; leave stitches on knitting needle.

4 Bring yarn through purl stitch as if to purl; pull stitch off knitting needle.

5 Repeat Steps 1–4 across. Adjust tension.

Alternate method

Divide the stitches onto 2 double-pointed needles: the knits on the front needle; the purls on the back needle. Graft.

KNIT CAST-ON

1 Start with a slip knot on left needle (first cast-on stitch). Insert right needle into slip knot from front. Wrap yarn over right needle as if to knit.

2 Bring yarn through slip knot, forming a loop on right needle.

3 Insert left needle under loop and slip loop off right needle. One additional stitch cast on.

4 Insert right needle into last stitch on left needle as if to knit. Knit a stitch and transfer it to the left needle as in Step 3. Repeat Step 4 for each additional stitch.

PURL

1 With yarn in front of work, insert right needle into stitch from back to front.

2 Bring yarn over right needle from front to back.

3 Bring yarn through stitch with right needle. Pull stitch off left needle. Repeat Steps 1–3.

KNIT

1 With yarn in back of work, insert right needle into stitch on left needle from front to back.

2 Bring yarn between needles and over right needle.

3 Bring yarn through stitch with right needle. Pull stitch off left needle.

Knit stitch completed. Repeat Steps 1–3.

BIND OFF

Knitwise

1 Knit 2 stitches.

2 With left needle, pass first stitch on right needle over second stitch (above) and off needle: 1 stitch bound off (next drawing).

3 Knit 1 more stitch.

4 Pass first stitch over second. Repeat Steps 3 and 4.

When last loop is on right needle, break yarn and pull tail of yarn through loop to fasten (see Fasten off).

Purlwise

Work Steps 1–4 of Bind-off Knitwise EXCEPT, purl the stitches instead of knitting them.

FASTEN OFF

Work bind-off until only 1 stitch remains on right needle. If this is the last stitch of a row, cut yarn and fasten off stitch as shown above. Otherwise, this is the first stitch of the next section of knitting.

working from charts

Charts are graphs or grids of squares that represent the right side of knitted fabric. They illustrate every stitch and the relationship between the rows of stitches. **Squares** contain knitting symbols. **The key** defines each symbol as an operation to make a stitch or stitches.

The pattern provides any special instructions for using the chart(s) or the key.

The numbers along the sides of charts indicate the rows. A number on the right side marks a right-side row that is worked leftward from the number. A number on the left side marks a wrong-side row that is worked rightward. Since many stitches are worked differently on wrong-

side rows, the key will indicate that. If the pattern is worked circularly, all rows are right-side rows and worked from right to left.

Bold lines within the graph represent repeats. These set off a group of stitches that are repeated across a row. You begin at the edge of a row or where the pattern indicates for the required size, work across

to the second line, repeat the stitches between the repeat lines as many times as directed, then finish the row.

The sizes of a garment are often labeled with beginning and ending marks on the chart. This avoids having to chart each size separately.

CHAIN CAST-ON

A temporary cast-on

1 With crochet hook and waste yarn, loosely chain the number of stitches needed, plus a few extra chains. Cut yarn.

2 With needle and main yarn, pick up and knit 1 stitch into the back 'purl bump' of the first chain. Continue, knitting 1 stitch into each chain until you have the required number of stitches. Do not work into remaining chains.

SLIP STITCH CROCHET

1 Insert the hook into a stitch, catch yarn, and pull up a loop.

2 Insert hook into the next stitch to the left, catch yarn and pull through both the stitch and the loop on the hook; 1 loop on the hook. Repeat Step 2.

SHORT ROWS (W&T)

Each short row adds two rows of knitting across a section of the work. Since the work is turned before completing a row, stitches must be wrapped at the turn to prevent holes. On stockinette stitch, work a wrap as follows:

Knit side

1 With yarn in back, slip next stitch as if to purl. Bring yarn to front of work and slip stitch back to left needle (as shown). Turn work.
2 With yarn in front, slip next stitch as if to purl. Work to end.

3 When you come to the wrap on a following knit row, hide the wrap by knitting it together with the stitch it wraps.

Purl side

1 With yarn in front, slip next stitch as if to purl. Bring yarn to back of work and slip stitch back to left needle (as shown). Turn work.
2 With yarn in back, slip next stitch as if to purl. Work to end.

3 When you come to the wrap on a following purl row, hide the wrap by purling it together with the stitch it wraps.

LONG-TAIL CAST-ON

Make a slipknot for the initial stitch, at a distance from the end of the yarn, allowing about 1½" for each stitch to be cast on. **1** Bring yarn between fingers of left hand and wrap around little finger as shown.

2 Bring left thumb and index finger between strands, arranging so tail is on thumb side, ball strand on finger side. Open thumb and finger so strands form a diamond.

3 Bring needle down, forming a loop around thumb.

4 Bring needle under front strand of thumb loop...

5 ...up over index finger yarn, catching it...

6 ...and bringing it under the front of thumb loop.

7 Slip thumb out of its loop, and use thumb to adjust tension on the new stitch. One stitch cast on.

Results of long-tail cast-on (both sides):

SINGLE CROCHET (SC)

1 Insert hook into a stitch, catch yarn and pull up a loop. Catch yarn and pull through the loop on the hook.

2 Insert hook into next stitch to the left.

3 Catch yarn and pull through the stitch; 2 loops on hook.

4 Catch yarn and pull through both loops on hook; 1 single crochet completed. Repeat Steps 2–4.

HALF-DOUBLE CROCHET (hdc)

1 Insert hook into a stitch, catch yarn, and pull up a loop. Chain 2 (counts as first half-double crochet).

2 Yarn over, insert hook into next stitch to the left (as shown).

Catch yarn and pull through stitch only; 3 loops on hook.

3 Catch yarn and pull through all 3 loops on hook: 1 half-double crochet complete. Repeat Steps 2–3.

CHAIN STITCH

1 Make a slip knot to begin. **2** Catch yarn and draw through loop on hook (left). First chain made (right). Repeat Step 2.

3-NEEDLE BIND-OFF

Instead of binding off shoulder stitches and sewing them together

Bind-off ridge on wrong side

1 With stitches on 2 needles, place *right sides together*. *Knit 2 stitches together (1 from front needle and 1 from back needle, as shown); repeat from * once more.

2 With left needle, pass first stitch on right needle over second stitch and off right needle.

3 Knit next 2 stitches together.

4 Repeat Steps 2 and 3, end by drawing yarn through last stitch. (See Fasten off).

Bind-off ridge on right side

Work as for ridge on wrong side, EXCEPT with wrong sides together.

MAKE 1 (M1)

Knit

For a *left-slanting increase* (M1L), insert left needle from front to back under strand between last stitch knitted and first stitch on left needle. Knit, twisting strand by working into loop at back of needle.

The result is a left-slanting increase.

Or, for a *right-slanting increase* (M1R), insert left needle from back to front under strand between last stitch knitted and first stitch on left needle. Knit, twisting strand by working into loop at front of needle.

The result is a right-slanting increase.

Purl

For a *left-slanting increase* (M1L), insert left needle from front to back under strand between last stitch worked and first stitch on left needle. Purl, twisting strand by working into loop at back of needle from left to right.

For a *right-slanting increase* (M1R), work as for Make 1 Right, Knit, EXCEPT purl.

YARN OVER (YO)

Between knit stitches

Bring yarn under the needle to the front, take it over the needle to the back and knit the next stitch.

After a knit, before a purl

Bring yarn under the needle to the front, over the needle to the back, then under the needle to the front; purl next stitch.

After a purl, before a knit

With yarn in front of the needle, bring it over the needle to the back; knit next stitch.

GRAFTING

Stockinette-st graft:

1 Arrange stitches on 2 needles as shown.
2 Thread a blunt needle with matching yarn (approximately 1" per stitch).
3 Working from right to left, with right sides facing you, begin with Steps 3a and 3b:

An invisible method of joining knitting horizontally, row to row. Useful at shoulders, underarms, and tips of mittens, socks, and hats.

3a Front needle: bring yarn through first stitch as if to purl, leave stitch on needle.

3b Back needle: bring yarn through first stitch as if to knit, leave stitch on needle.

4a Front needle: bring yarn through first stitch as if to knit, slip off needle; through next stitch as if to purl, leave stitch on needle.

4b Back needle: bring yarn through first stitch as if to purl, slip off needle;

through next stitch as if to knit, leave stitch on needle.

Repeat Steps 4a and 4b until 1 stitch remains on each needle.

5a Front needle: bring yarn through stitch as if to knit, slip off needle.

5b Back needle: bring yarn through stitch as if to purl, slip off needle.

6 Adjust tension to match rest of knitting.

K2TOG (K3TOG)

A right-slanting single (double) decrease

1 Insert right needle into first 2 (3) stitches on left needle, beginning with second (third) stitch from end of left needle.

2 Knit these 2 (3) stitches together as if they were 1.

P2TOG (P3TOG)

1 Insert right needle into first 2 (3) stitches on left needle.

2 Purl these 2 (3) stitches together as if they were 1.
The result is a right-slanting decrease.

SSK

A left-slanting single decrease

1 Slip 2 stitches separately to right needle as if to knit.

2 Slip left needle into these 2 stitches from left to right and knit them together:

2 stitches become 1.
The result is a left-slanting decrease.

SSSK

A left-slanting double decrease

Work same as SSK except: 1 Slip 3 stitches. 2 Knit these 3 stitches together.

S2KP2, SL2-K1-P2SSO

A centered double decrease

1 Slip 2 stitches together to right needle as if to knit.

2 Knit next stitch.

3 Pass 2 slipped stitches over knit stitch and off right needle: 3 stitches become 1; the center stitch is on top.

The result is a centered double decrease.

SSSP

SK2P, SL 1-K2TOG-PSSO

A left-slanting double decrease

1 Slip 1 stitch knitwise.
2 Knit next 2 stitches together.
3 Pass the slipped stitch over the k2tog: 3 stitches become 1; the right stitch is on top.

SSP

A left-slanting single decrease

1 Slip 2 stitches separately to right needle as if to knit.

2 Slip these 2 stitches back onto left needle. Insert right needle through their 'back loops' (into the second stitch and then the first).

3 Purl them together: 2 stitches become 1.

The result is a left-slanting decrease.
